Sun Raised & Sundried Certified Organic Dried Fruit

The Kamvissis family have been growing grapes in the Mildura region for over 30 years. Working 27 acres (10 hectares), their crops comprise mainly of fresh table grapes, dried fruit and wine varieties. Being second generation horticulturalists, they have seen many changes in the industry and now all their produce is 100% certified organic, grown under the clear blue Sunraysia skies.

ABOUT US

- * All Australian Organics hand picked their grapes and dry them on traditional drying racks under the Sunraysia sun to produce beautiful fruit of premium quality
- * 100% Australian owned and grown
- * Sultanas often seen in conventional supermarket shelves, are blown up with hormones and are known as 'Thomson seedless'. Unfortunately, consumers have been accustomed to seeking out size and shape, but are beginning to realise that flavour and nutrition, have a higher value to their health and well being.
- * Organic grapes do not use the sprays and hormones associated with conventional grapes.
